### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### IN THE SPECIFICATION:

Page 1, line 5 and line 8, "[Docket No. 01-HK-048]" has been changed to ----  
10/036,809----.

2. The following is an examiner's statement of reasons for allowance: All the claims are allowable over the prior art of record because prior art fail to teach or fairly suggest a packet switch for switching cells as recited in the claims including the features of selecting a first one of a plurality of queued head-of-line cells from input queues to be transmitted to a first one of  $N \times N$  internal buffers according to a fair queuing algorithm in which each of the queued HOL cells is allocated a weight of  $R_{ij}$  and wherein the scheduling controller is further capable of selecting a first one of a plurality of HOL cells buffered in a second one of the  $N \times N$  internal buffers to be transmitted to a first one of the output queues according to a fair queuing algorithm in which each of the internally buffered HOL cells is allocated a weight of  $R_{ij}$ , wherein a group of  $K$  queues share a combined capacity of 1, and  $R_i < 1$ , where  $R_i$  is the guaranteed bandwidth associated

with queue I, wherein any queue being non-empty over a time interval T can be guaranteed a bandwidth of  $R_i T + E$ , where E is a constant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
